

Designed for **SMART Board™** 685/ 885X and **EPSON®** EB-series projector

Projected image is simulated.
Projector and board not included.

Included:

- Sturdy, board specific, interactive board mount providing maximum support to board and projector.
- Small pen tray for mounting to left or right hand side of board mount.
- Projector arm with projector specific mount.
- Stylish aluminum center column with integrated actuator providing 20" motorized height adjustment.
- Center column features 4 leveling feet and 2 brackets to attach column to the wall.
- Wired remote control. RF remote optionally available.

SCETAW-IWB motorized wall mount

The ConenMounts SCETAW-IWB is a motorized wall mount designed for use with interactive whiteboards. The system features a board specific IWB mount with integrated projector arm, mounted onto a motorized center column.

The board mount fully supports the board and ensures a vibration-free projected image when writing onto the board. The system is compatible with virtually any board and any projector and can be retrofitted to all equipment as needed. The system even allows for easy change-over from IWB mount to Flat panel mount, simply by exchanging the display mount.

The heavy-duty actuator inside the center column allows for a weight load of 330 lbs. and guarantees smooth adjustability of board and projector over a 20" range.

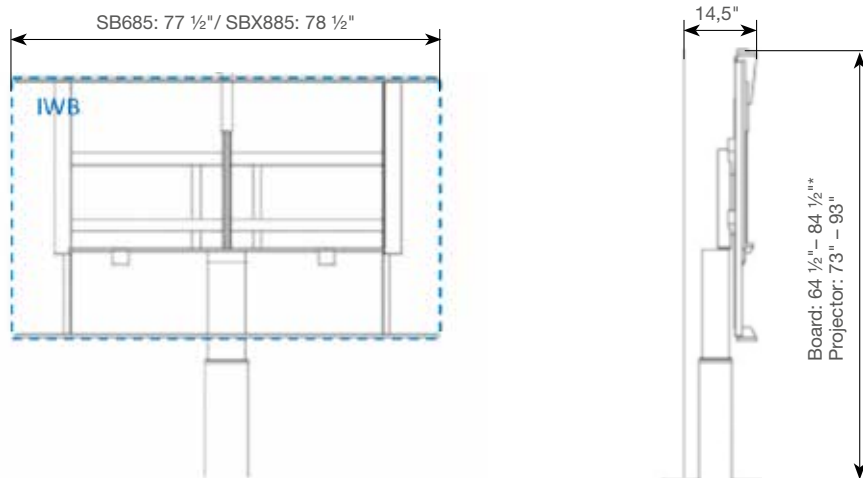

Because the weight of the system is resting on the column the mounting system does not require for reinforced walls and can even be positioned in front of the existing black-board.

The unique features of this motorized system make the ConenMounts SCETAW-IWB more than a mere mounting solution; it's an essential and future proof teaching tool.

Also available as
mobile solution

Designed for **SMART Board™** 685/ 885X and **EPSON®** EB-series projector

* Mounting position of board frame can be changed upon request to address specific requirements, e.g. use in elementary or primary schools.

SCETAW-IWB motorized wall mount (p/n: SCETAW-IWB)				
Component part number	Product description	Packaging dimensions H/W/D	Gross weight (lbs)	Net weight (lbs)
CCE50W	Motorized center column	38.2" x 11.0" x 8.7"	48.5	43.0
AFSCETA3	Interface between column and board frame	22.0" x 63.0" x 7.9"	39.7	37.5
AF-STM-SB685 AF-STM-SB885	IWB frame for SMART Board® SB685 resp. SBX885	17.0" x 10.0" x 6.3"	46.3	44.0
G2-EB-KS	Projector arm and mount for Epson® EB-series	42.5" x 9.4" x 6.7"	26.5	24.0
