

## WALLMOUNTED 2 PYLON SYSTEM FOR DISPLAYS FROM 65-86"

ELECTRICAL HEIGHT ADJUSTABLE, 70 CM STROKE

### PRODUCT

This electrically height-adjustable pylon-system is compatible with all touch screen displays available on the market from 65" to 86" screens. The adjustable pylon-system consists of two aluminum profiles mounted on the wall and floor, in which the motor is concealed.

By using the two button remote attached to the system, you can adjust the display to the desired working height. This ensures that every user can work and present at their ergonomically best height.

Advantage of the electrical height adjustment: It increases the lifespan of the display, because controlled movement protects the technology.
