

# MONITOR STAND AND MONITOR WALL MOUNT, CENTER OF DISPLAY 192 CM

COLUMN SILVER ANODIZED, FIXED HEIGHT, FLOOR PLATE

## PRODUCT

Fixed height monitor stand for 55-100" touch screen displays.

For applications that do not necessarily require height adjustment or where price is key, Conen Mounts offers a series of fixed height solutions. The monitor stands feature a sturdy aluminum center column that comes in different heights. Mounted atop the center column is the display mount which allows for cables to be stowed away neatly behind the touch screen display.

A 0.3" thick, solid steel plate secures to the center column. Designed for static, freestanding applications or to add stability to wall mount systems, secured to e.g. a stud wall. The floor plate features cut-outs/handles for easy transportation. It comes powder coated in grey aluminum.

The unit comes flat-packed in 3 cartons and is courier-shippable.
